SUMMARY

Java Backend Developer with 2.5+ years' experience building scalable APIs and microservices in Fintech/BFSI. Strong in Core Java and Spring Boot, with end-to-end ownership of backend services.

EXPERIENCE

Software Development Engineer - Backend

Feb 2024 – Jul 2026

ePayLater

Gurugram, Haryana

- Designed and developed backend services using Java, Spring Boot, Dropwizard and PostgreSQL for fintech lending and payment platforms, building secure and scalable REST APIs.
- Developed end-to-end customer onboarding, repayment, disbursement and transaction workflows while collaborating with multiple internal services.
- Built the complete Mandate lifecycle including mandate registration, callback handling, status synchronization, reconciliation jobs and vendor failover between payment providers.
- Integrated third-party financial platforms including Razorpay, Paytm, OneMoney, Signzy, Digitap, Karza, Samunnati, ICICI and Yes Bank for payment processing, CKYC, identity verification, bank verification and bank statement analysis.
- Migrated backend services from Dropwizard to Spring Boot by refactoring configurations, REST clients, schedulers and service components.
- Designed PostgreSQL database schemas, implemented Liquibase migrations and optimized JDBI queries to improve maintainability and backend performance.
- Developed scheduled background jobs for mandate synchronization, payment reconciliation, settlement processing and operational automation.
- Built internal operational tools including Settlement Dashboard, PF Dashboard and self-service modules, and implemented WhatsApp/SMS notification services using Sinch, Vialogue and InfiniSolution.
- Resolved critical production issues through log analysis, SQL debugging, API troubleshooting and root cause analysis while collaborating with Product, QA and Operations teams in an Agile environment.

TECHNICAL SKILLS

Languages: Java (8/21), SQL, OOPS

Backend: Spring Boot, Spring WebFlux, Spring Cloud, Microservices, JPA/Hibernate, JDBC, JDBI, R2DBC

APIs: REST, SOAP, gRPC

Messaging & Streaming: Apache Kafka, Apache Flink

Databases: MySQL, PostgreSQL, Oracle,

Testing: JUnit, Mockito

DevOps: Docker, Kubernetes, CI/CD

Build Tools: Maven, Gradle

Auth: OAuth2, JWT

Domain: Fintech, BFSI, Payments

EDUCATION

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Aug 2018 – Jul 2022

B.Tech in Computer Science and Engineering — CGPA: 7.52/10

ACHIEVEMENTS

- Received Certificate of Appreciation from **ePayLater** for Q3 2024 (Jul-Sep).
- Qualified the Graduate Aptitude Test in Engineering (**GATE**) 2023.
